

David Salas Videla

ADDRESS Alfredo Barros Errázuriz, Dpto. 607
Santiago, Chile.

CONTACT *Phone (Chile):* +56 985275721
INFORMATION *e-mail:* david.salas@uoh.cl
 Personal webpage: <http://davidsalasvidela.cl>

NATIONALITY Chilean.

PERSONAL *Full Name:* David Sebastián Salas Videla.
INFORMATION *RUT:* 17.024.935-6
 Birthday: October 22th, 1988.

LANGUAGES Spanish (Native); English (Proficient); French (Independent).

FILIATIONS Universidad de O'Higgins - Associate professor.
Center of Mathematical Modeling - Associate researcher.

STUDIES **Ph. D. studies: Applied Mathematics and Modeling** [Thesis' advisor: Lionel Thibault], October 2013 - December 2016:
[Institut Montpellierain Alexander Grothendieck](#), [Université de Montpellier](#), Montpellier, France.

Professional title: Mathematical engineer [Master's thesis' advisors: R. Correa, A. Hantoute - Graduated with Maximal Distinction], 2007 - 2013:
[Departamento de Ingeniería Matemática](#), [Facultad de Ciencias Físicas y Matemáticas \(FCFM\)](#), Universidad de Chile. Santiago, Chile.

BS in mathematical engineering [Graduated with Maximal Distinction], 2007 - 2012
[Departamento de Ingeniería Matemática](#), [Facultad de Ciencias Físicas y Matemáticas \(FCFM\)](#), Universidad de Chile. Santiago, Chile.

ACADEMIC **Associate professor** at [Instituto de Ciencias de la Ingeniería](#), Universidad de POSITIONS O'Higgins, Rancagua, Chile. June 2023 - Present.

Assistant professor at [Instituto de Ciencias de la Ingeniería](#), Universidad de O'Higgins, Rancagua, Chile. March 2020 - June 2023.

Post-Doctoral researcher (FONDECYT) at [Centro de Modelamiento Matemático \(CMM\)](#), Universidad de Chile, Santiago, Chile. April 2019 - March 2020.

Post-Doctoral researcher at [Instituto de Ciencias de la Ingeniería](#), Universidad de O'Higgins, Rancagua, Chile. September, 2018 - April 2019.

Post-Doctoral researcher (Chercheur Contractuel) at [INP - ENSIACET](#), Toulouse, France. September, 2017 - August 2018.

Post-Doctoral researcher (Chercheur Contractuel) at [PROMES CNRS](#), Perpignan, France. October, 2016 - July 2017.

FIELDS OF
INTEREST

Variational Analysis and Dynamical Systems: I study nonsmooth dynamical systems, induced by descent dynamics, sweeping processes and other variational dynamics. I'm also interested in nonsmooth first-order calculus in the convex and nonconvex setting.

Differential geometry in Variational Analysis: I study the differential structure of mathematical objects in the context of variational analysis, such that the metric projection, manifolds in Hilbert spaces, o-minimal structures, among others.

Optimization and Game Theory: I'm interested in optimization and equilibrium problems in several settings, such as quasiconvex equilibrium problems, nonsmooth optimization, variational formulations, bilevel optimization and Multi-Leader-Follower games, both in the deterministic and stochastic setting. I study both, theoretical aspects and algorithms.

Applications of Optimization and Learning: I am interested in high impact problems where optimization, game theory and learning are involved. I study applications of these theories, such that sharing economies, cryptocurrencies, design of exchange networks and opinions in social networks. Problems in renewable energy, and management of natural resources have been one of my research lines in the recent years. I am also interested in problems of Operations research, logistic and economics in general.

TEACHING
EXPERIENCE
(SELECTED)

Lecturer at [Universidad de O'Higgins](#), in the following courses (and their semesters):

- Linear Algebra - Spring 2018, Spring 2020, Spring 2021.
- Linear Optimization - Fall 2022.
- Non-linear Optimization - Spring 2020, Spring 2021. Lecture notes (incomplete): http://david salasvidela.cl/docs/Apunte_MMD3702.pdf
- Advanced method in Optimization - Spring 2023.
- Game Theory - Fall 2021, Fall 2022.
- Advanced Calculus - Fall 2020, Fall 2021, Spring 2023, Fall 2024. Lecture notes: In preparation.

Lecturer at the [Mathematical Engineering Department](#) (Universidad de Chile), in the following courses (and their semesters):

- Introduction to Bilevel Optimization (**Doctorate school**) - Fall 2023.
 - Real Analysis (**Doctorate school**) - Fall 2019.
 - Multivariable Calculus - Spring 2018, Spring 2019.

MANUSCRIPTS (2)

Ph.D thesis: *Détermination sous-différentielle, propriété Radon-Nikodým de faces, et structure différentielle des ensembles prox-réguliers*, Université de Montpellier, Montpellier, France, 2016.

Master's thesis: *Fórmula de integración en espacios con la propiedad de continuidad del subdiferencial*, Universidad de Chile, Santiago, Chile. 2013.

FUNDING AND
AWARDS

Invited Professor TSE: 1-month position as invited professor at [Toulouse School of Economics](#), France. December 2024.

Poste Rouge CNRS 2023-2024: 3-months CNRS position at [Institut de Mathématiques de Toulouse](#), France, funded by CNRS. September 2024 - November 2024.

Math-Amsud project 23-MATH-13: *Stochastic Optimization, Generalized Games and Applications*. 2024-2025. **Role:** National Coordinator.

FONDECYT Iniciación project 11220586: *Optimization and Games with Decision-Dependent Uncertainty: Theory, Algorithms and Applications*. March 2022 - March 2025. **Role:** Principal Researcher.

Internal Multidisciplinary projects of O'Higgins University MSM2021003: *Gestión Inteligente de Recursos Hídricos para la Agricultura*. September 2021 - March 2024. **Role:** Director.

FONDECYT Post-doctorate fellowship 3190229: *Nonsmooth dynamical system involving regular structures*. March 2019- March 2022. **Role:** Principal Researcher.

Math-amsud project 20-MATH-08: *Stochastic Optimization, Chance Constraints and Applications to Energy*. 2020-2021. **Role:** Co-Researcher.
